Professional Summary

Technical Implementation Engineer with 1.5+ years of experience at Sapiens specializing in GhostDraft document automation, XSLT data mapping, and P&C Insurance workflows. Proven track record in configuring enterprise modules, resolving complex XML/API integration defects, and delivering zero-defect production releases ahead of schedule.

Skills

- **Document Automation:** GhostDraft CCM Development, Template Design, Document Composition, Form Authoring, Scripting, Iframe setup, complex Data Mapping and printing.
- **Programming & Logic:** Java, XML, JSON, SQL
- **Domain Knowledge:** P&C Insurance, Policy Administration, Billing, Claims Processing (Sapiens Suite / Guidewire Equivalent functionality).
- **Workflow:** System Development Lifecycle, REST APIs, SOAP, AWS S3 and service Integration.
- **Tools & Methodologies:** Git, Agile/Scrum, JIRA, Unit Testing, Production Support

Work Experience

Sapiens Technologies Pvt. Ltd, Bangalore

Apr 2025 - Present

Associate Technical Analyst

- Earned company Bravo Award for delivering a major high-ticket module ahead of schedule, providing QA extended lead time for rigorous regression testing and enabling a zero-defect production rollout.
- Authored, updated, and managed complex document templates, forms, and customer communication outputs using GhostDraft, ensuring full compliance with P&C insurance regulatory and business requirements.
- Configured rule-based document automation processes by mapping structured XML payloads and database sources to GhostDraft via XSLT transformations and custom scripting/logic.
- Built, tested, and maintained integrations connecting GhostDraft and core enterprise product modules (Policy, Billing, Claims) with third-party tools using REST/SOAP APIs.
- Investigated and resolved document generation errors, formatting glitches, and API request/response mismatches through root-cause log analysis and XML payload debugging.
- Implemented AWS S3 integration with ghostdraft to store documents in client-side server when required using workflow.

Education

PG-DAC – Sunbeam Pune

Aug 2024 - Feb 2025

(Post-Graduate Diploma in Advance Computing)

Grade: A

Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Full-Stack Workflows with 3 tech stacks including (MERN, JAVA + Spring Boot + DotNet).

Shri Ramdeobaba College of Engineering and Management, Nagpur

Aug 2019 – April 2023

(B.E – Electronics and Communication Engineering)

CGPA: 8.1

Project Work

Library Management System (2024) [Link:](#)

- Designed and built a secure, full-stack operational dashboard to automate public utility workflows, asset tracking, and member administration profiles.
- Integrated role-based access control using JWT-based authentication alongside secure database persistence logic.

Awards/Certificates and Other Interests

- **ASIA BOOK OF RECORDS:** led my team in the Defeat Diabetes event, organized by ROTARACT on 29 th Sept 2021

Other Interest includes playing Table Tennis, hiking/trekking in Mountain. Travelling. Reading
Participation in Competitive Programming with solving 200+ problems in leetcode.
